MESSAGE FROM THE CEO

It is often said that the greatest good one can do to other people is not to share one's wealth with them, but to reveal theirs to them.

The wealth of Macir Vie lies in the trust you place in us on a daily basis.

This trust feeds our ambition to support and serve you in a complex and particularly sensitive area that is close to our hearts. We provide you with extensive coverage you may need in areas such as: your health, the financial protection of your families, the protection of your employees and the financial coverage of health costs, in Algeria and abroad.

Our mission is to be by your side in order to withstand, in your stead, the financial consequences of life's uncertainties. Macir Vie therefore offers the essential complement to the legal social security scheme. Our teams rely on their professionalism and keen sense of responsibility in order to offer new, high potential guarantees and coverage.

Our main purpose is to be there for you, your family and your business, and be by your side during life's difficult moments.

Our company is built with you but it is also a partner of world-renowned assistants. Macir Vie has also joined forces with high-quality reinsurers, giving it great flexibility in terms of pricing and efficiency in reimbursement of claims.

For all these reasons, we are proud to be able to support you and provide you with effective solutions to all your concerns.

Mohamed Hakim SOUFI
CEO

WHO WE ARE

Macir Vie was founded on August 11th 2011, following the separation of life and non-life insurance into distinct companies. With the skills and talents of our experienced team, the company has benefited from an in-depth knowledge of the Algerian social and economic context. This is how Macir Vie has been able to bring real added value to the insurance market, by designing products that meet the expectations and specific needs of both our professional and private policyholders. Thanks to these strengths and the will of the entire team, Macir Vie has been able to take up multiple challenges, ensure constant growth, to the point that it now ranks first among private insurance companies.

OUR MISSIONS

- Contribute to the development of the insurance sector in Algeria.
- Support you and your business through all the tough times that life brings your way.
- Develop innovative services to best meet your needs.

Macir Vie's actions rely on three fundamental values: Reliability; Proximity and Innovation. By embodying these values, our teams offer you quality service on a daily basis.

RELIABILITY

Thanks to our specialization in the field of personal insurance and our solid experience, we ensure reliability in any circumstance. To do so, Macir Vie is fully dedicated to keeping its commitments to clients, in order to respond to all issues, including in terms of claims management and the speed at which claims are paid.

Proximity to our clients is one of our main priorities. Our teams make sure to be accessible and available to take care of your issues in the best possible manner. With dedicated staff, constantly listening and through unwavering respect for its clients, our company is entirely dedicated to you.

INNOVATION

Innovation is Macir Vie's keyword. We find this value through our aim to achieve the digital transformation of insurance services, but also by offering products inspired by our clients, to meet their needs. This is why we attach great importance to technological development, in order to ensure a presence on all platforms.

ORIGIN OF THE NAME MACIR VIE

Macir Vie was designed as a company centered on People and what we can bring to them.

In this context, we chose the word Arabic word MACIR, which means "destiny". Thus, and in the spirit of our religion, we want to be by our clients' sides through whatever good destiny has in store for them, and provide all the support during hard times.

Therefore, the origin of the name of Macir Vie is a pledge of support to all those who place their trust in us. We will support you and are committed to being by your side in all circumstances.

This is why our motto is:

« Together For Life ».

TECHNOLOGIES & DIGITIZATION

True to our value of Innovation, we made sure to offer all the necessary tools for an optimal digital management of our company. To do so, we have developed a series of platforms and trademark software dedicated to our agents and our clients. We also emphasize on the encryption and privacy of our users' personal data. All of these tools aim to simplify and facilitate access to our products, as well as to accelerate policy management.

Our “E-Health” and “E-Adherent” platforms are a major innovation, enabling client companies covered by Group insurance to remotely manage all employee policies, from filing a claim to reimbursement.

All of our innovations are made possible by the construction of a centralized information system with our ERP software, allowing us to interconnect our entire network. This gives Macir Vie the unique ability to have an overview of all the departments of the company, for better responsiveness, a simple and efficient management, as well as an optimal follow-up. This information system therefore allows us to carry out a constant and efficient analysis and diagnosis of all existing processes.

These elements, among others, place us at the forefront of the insurance market in Algeria and allow us to have the ambition to achieve our medium-term objective: to develop, digitalize the insurance service and become a leading insurance company in the country.

OUR PARTNERS

Macir Vie relies on solid, internationally recognised partners to offer you the best coverage and to support you in your future projects.
